ICOP[®]

ADVANCING SURVEILLANCE TECHNOLOGY

REAL-TIME SITUATIONAL AWARENESS

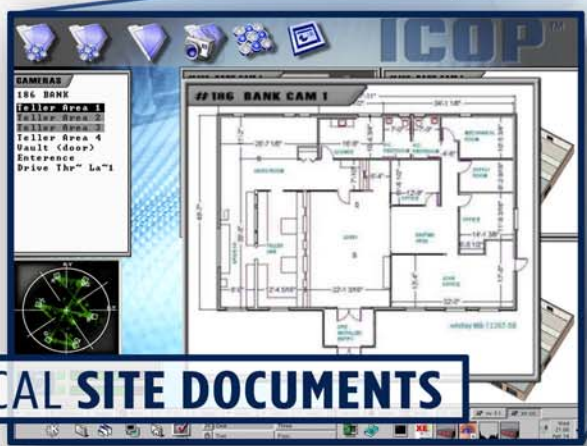

ICOP Mobile and Stationary Solutions. ICOP Solutions enable live streaming of video and access to Critical Site Documents (site maps, personnel attendance, location of volatile chemicals, etc.) from a school, bank, etc. - to First Responder headquarters or to a First Responder vehicle (or from vehicle to headquarters) - over high speed wireless networks, in addition to recording of high quality video for evidence.

- Schools
- School Buses
- Manufacturing Plants
- Power Plants
- Chemical Plants
- Oil Refineries
- Petroleum Plants
- Critical Infrastructure

- Banks
- Retail
- Office Buildings
- Public Transportation
- Border Sites
- Courthouses
- Hospitals
- Rail
- Ports
- Prisons
- Airports

ICOP SOLUTIONS

ICOP MODEL 20/20™-W

ICOP Model 20/20[®]-W

- Officer-safe design -- in-dash (or console) mounting
- Installs in all vehicles
- Supports resolution settings ranging from high quality 4CIF to space-conserving QVGA
- Easy to use
- Meets IACP Minimum Specifications (draft)
- Wireless video uploads (802.11g or 802.11n, upgradeable to higher bandwidth technologies when available)
- "Mark" events for easy retrieval
- Operates up to 3 cameras (record 2 simultaneously) and up to 3 audio sources
- Optional remote faceplate for alternate mounting options

Complete System Includes

- DVR
- Sony color camera
- Back-seat infrared camera
- 900 MHz FHSS wireless mic with holster
- Covert in-car mic
- Integrated GPS
- 3.8" display with control panel
- 40 GB vehicle grade removable hard drive
- AM/FM radio

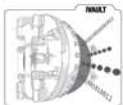

ICOP GUARDIAN™

ICOP Guardian™ IP Camera

- Captures high quality video images (JPEG2000)
- Scalable file sizes (adjustable frame rates and image resolution)
- Auto (and manual) focus capabilities
- Can be triggered by existing alarm systems/motion detection (with pre-event support), etc.
- Remote PTZ (pan/tilt/zoom) capability

ICOP iVAULT MMS™

ICOP iVAULT MMS™ (Media Management System)

- Enterprise-ready video and evidence management system
- Highly secure web-enabled file sharing access
- Easy and fast search and retrieval
- Stored "metadata" includes siren status, brake status, vehicle speed, radar speed, GPS location, date, time, officer ID, vehicle ID, case number, ticket number, Event ID, etc.)
- View thumbnails or full-screen video images
- Burn video files to CD or DVD
- Server or PC based
- Instant Chain of Custody reporting
- Supports multiple file formats (for management of related files)
- Highly customizable access to organizational infrastructure

ICOP LIVE™

ICOP Live™ Streaming Video Solution

- Stream video from a fixed or mobile site, while still recording in high quality
- Accessible with standard internet browser software
- No special equipment required to view secured video (accessible from any standard Windows-enabled device)
- Unique design allows multiple concurrent connections from surveillance sites and users
- Network agnostic
- No server hosting – LIVE implementation as a platform virtually eliminates associated IT support staff and infrastructure costs
- Highly secure video access, utilizing Microsoft Active Directory
- Remote PTZ capability on supported cameras

ICOP MODEL 4000™

ICOP Model 4000™

- Public transit, commercial & school bus DVR (4 or 8 camera)
- High quality MPEG4 or MJPEG video with multiple, user-configurable resolution options
- Small, rugged, vibration-resistant form factor
- Extensive array of input/output ports (eg, USB 2.0, ethernet, RS-232)
- GPS and Wireless streaming and wireless upload capable (optional)
